Shanghai, China

CHINA HEAT PUMP EXHIBITION 2019

2019 中国热泵展

Hot Water | Heating | Drying | Special Heat Pump

03.15-03.17

Shanghai Everbright Convention &
Exhibition Center

Area of
Exhibition in m²

55000

Number of
Exhibitors

350

Number of
Professional Buyers

55000

Organizer: Shenzhen Romars Advertising Co., Ltd & "Heat Pump Market" magazine

Supported by: Guangdong Heat Pump Industry Association

中国热泵展 9th
CHINA HEAT PUMP EXHIBITION

CHINA HEAT PUMP EXHIBITION 2019

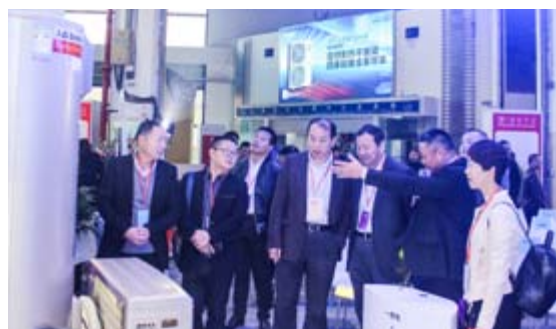

China Heat Pump Exhibition has been successfully held for 8 sessions, Steady Development, Impact Comes First

This exhibition has the largest exhibition area, the most professional exhibitors, the biggest popularity among buyers, and the most significant impact

China's #1 exhibition of Heat Pump, Hot Water, Heating, Drying, and Special Application

China Heat Pump Exhibition(CHPE), founded in 2010. It is the highest-profile professional exhibition of air source heat pump industry. For many years, we have always insisted on "Steady Development, Impact Comes First" exhibition concept, adhered to the goal of maximizing the creation of "commercial value", and continuously improved influences.

This annual, national attention drawn exhibition of air source heat pump industry exhibits products of various domains including hot water, heating, drying and special application on many industries and agriculture

fields. The products exhibited also come from solar energy, electric heating, water purification, fresh air and other related industries. CHPE provides a future-looking and benchmarking display platform for followers and consumers of clean heating and clean power supply industry.

On March 15–17, 2019, the 9th China Heat Pump Exhibition will continue to be held in Shanghai. The largest and most professional annual event for air source heat pump and even the clean heating industry would be held on an exhibition area of nearly 55,000 square meters. More than 350 exhibitor companies, and more than 55,000 professional audience are expected to participate in this exhibition. There are many forms of activities like exhibitions, summit forums, new product release, procurement conference, open course about heat pump which serves thousands of people and so on. This exhibition truly is the frontier platform for display and promote the heat pump industry across China and throughout the world.

1. Organizer

Guangdong Heat Pump Industry Association

2. Undertaker

Heat Pump Market Magazine

3. Area of Exhibition

55,000 square meters(The first floor, second floor, third floor and outer field of Shanghai Everbright Exhibition Hall)

4. Exhibitor Companies

350 or so companies in Heat Pump Hot Water, Heating, Drying, Special Application and Electric Heating, Ventilation, Water Purification industries

5. Professional Audience

Air source heat pump and related industries' manufacturers, upstream parts suppliers;

Hot water industry dealers, heating industry dealers, drying and dehumidification industry dealers;

Electric heating, solar energy, wall-hung boiler and other clean heating industry manufacturers and dealers;

HVAC, fresh air, water purification industry manufacturers and dealers;

Energy-using units such as real estate and hotels, design institute, universities' related majors, etc.

6. Principal Activities

2019 The most popular heat pump new product selection, 2019 Heat pump industry spring procurement conference, The fifth open course of heat pump with thousands of students, Heating and drying process basic course, Industry summit forum, New product promotion activities

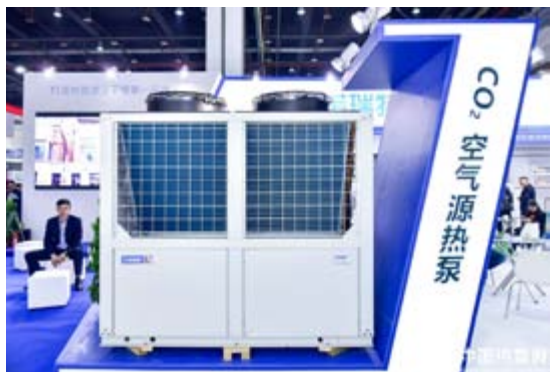

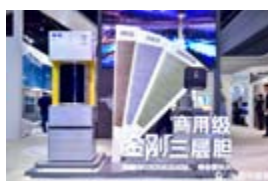

7. Exhibits range

1. All types of heat pump host system

Home-used heat pump water heater, Commercial-used heat pump water heater, Normal temperature and low temperature heat pump water heater; Air source heat pump heater; Floor heating air conditioning or air cooling module, Triple heat pump unit; Trinity pool heat pump unit;

Industrial and agricultural heat pump dryer, Special application heat pump unit(High temperature applications such as drying, plating, ironing, printing and dyeing), High temperature heat pump unit, steam heat pump unit; Ground source, water source heat pump unit, etc.

2. Upstream production industry chain

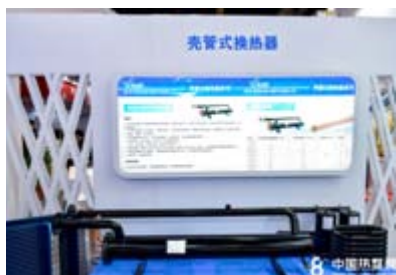

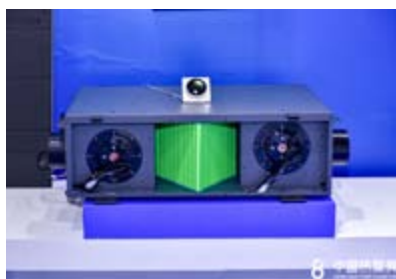

Compressor and its accessories, fans, main controller, sheet metal, evaporator, condenser, expansion valve, refrigerant distributor, dispenser, pressure switch, thermostat, solenoid valve, stop valve, pressure divider valve, electric valve, refrigerant drying filter, oil separator, defroster, motor, pump and accessories, timer, timing relay, raw materials, refrigerants, refrigeration equipment lubricants, refrigerant cylinders, cooling towers and accessories, and other system accessories; Machine tools, sheet metal bending machines, etc.;

3. Engineering supporting downstream industry chain

3.1 Hot water engineering system accessories

Insulation tank, engineering control cabinet, frequency control cabinet,

return water control system, regulator, decontamination device, humidification, purification equipment, circulating water pump, filter, time control / temperature control valve, electric heater, heating cable, heating network design, insulation materials, foam materials, control and adjustment equipment, shock absorption / insulation materials, welding materials, sealing materials, fixings, hardware, pipes and connectors;

3.2 Heating Engineering Accessories System

Floor heating pipe and capillary net, radiant ceiling heating, etc., all kinds of open mounted fan coil units, all kinds of radiators, slow flushing tanks, pumps, valve parts, pipe fittings and heat metering, intelligent control systems, etc., electric heating products and technologies, Water treatment equipment, etc.;

3.3 Drying engineering systems and accessories

Special heat pump unit, drying auxiliary machine, fan, circulating water supply system, aluminum alloy (brick-concrete structure) kiln body, kiln door (lift door device), heating system, humidity control system, air circulation system, intake and exhaust system, electric auxiliary system, inspection measurement system and control system;

4. Heating product area and accessories

Floor heating systems, electric heating products and technologies, fireplace accessory products and technologies, HVAC auto-control systems and technologies, heat metering, heat exchangers and accessories products and technologies, capillary networks, radiant ceiling

heating, etc. central heating equipment, distributed heating equipment, heating network design, thermal system operation and construction, boiler automatic control equipment and accessories, water treatment equipment, pumps, valves, temperature / pressure / flow / liquid / metrology instruments, various new types of pipes, compensators, various types of insulation and anti-corrosion materials, pipeline network equipment, etc.;

5. Related industry chain

Direct heat / thermal storage electric heating and related products and technologies, renewable energy heating products, solar water heaters, electric heating, indoor/outdoor fireplaces, water purification and related equipment, ventilation and dehumidification related equipment.

8. well-known exhibitors

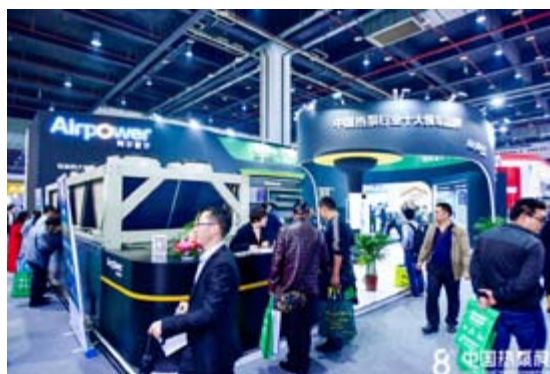

A.O.SMITH、JOYEAR、MIDEA、CLIVET、ZYMBO、AIR POWER、OUTES、EK、

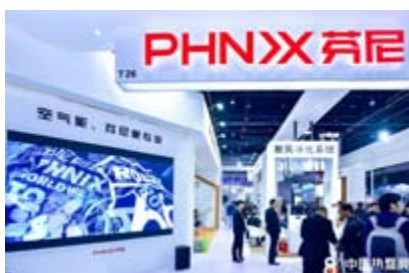

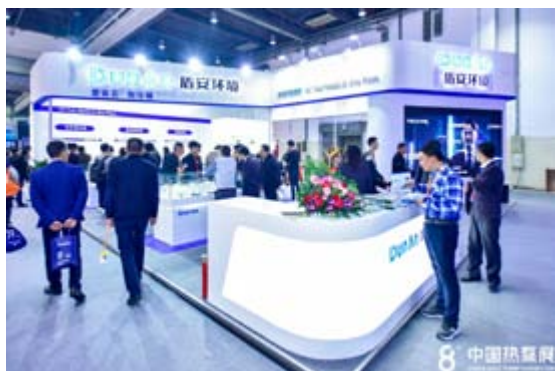

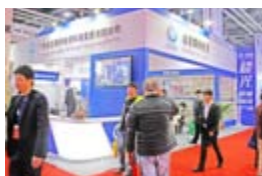

SHINHOO、SYSLAB、EIGEN、HENGYUE、ZHENGXU、WOYAAN、HIEN、AIM、GRUNDFOS、BAOSHENG、BILAI、IITELA、POWER WORLD、LION、KOLANT、ZKFD、PANASONIC、SHUANGLING、FCNP、HAVVIT、LUCKINGSTAR、CADIFF、KELI、GUANGTENG、Low-Carbon Life、GESIMU、HRALE、MINGHUANGZHILENG、HAIER、HIGHLY、CHUNYI、PUNP、AOTAI、TONGYI、KÖNNEN、HMCHUNQIU、MONGO、AMITIME、OUTE、THREE ENVIRONMENTAL、SHENSHI、BLUEREFRIGERATION、YATUO、FENGSHEN、FORWON、INHOWTER、ZHIBOSHI、ORIENTAL TAIDA、

9. Introduction of Organizer

China Heat Pump Exhibition is organized by the first and foremost media platform of the air source heat pump industry, the "Heat Pump Market" magazine. So far, it has been successfully held for 8 sessions. This exhibition is undoubtedly the number 1 in terms of the number of exhibitors, the number of exhibits, the revenue of the audience, and the number of activities held during the event. In the past 8 years, it has won a wide range of praises coming from superior units, exhibitors, audiences and media peers.

The largest database of the "Heat Pump Market" magazine is the basis for The success of the China Heat Pump Exhibition. Shenzhen Romars Advertising Co., Ltd has joined the industry for more than 11 years. Through these years of accumulation, now it has the most complete and largest database in the industry. The foremost media group in the heat pump industry includes "Heat Pump Market" magazine, "Manufacturers' Procurement Guide", "Procurement Guide of Hot Water Heating", heat pump business website, heat pump market WeChat official account (rbsc6666) and many other years of database. The databases include nearly 70,000 pieces of information about professional channel companies who are in the heat pump hot water, heating, drying and other industries. The databases also include 30,000 pieces of information about solar energy water heater industry, 100,000 pieces of information about refrigeration and air conditioning industry. Our databases are constantly expanding and updating.
